

Cost of Cheap Roller Fabrics

- ▶ **Time to paint a gyprock depends on the fabric.** Rolling one coat on a wall/ceiling using different fabric material:
 - Polyamide/sheepskin 70m² per hour High quality
 - Polyacrylic 45m² per hour Medium quality
 - Polyester 35 m² per hour Cheap material
- ▶ **A painter could be more efficient and earn at least \$12 more using a 10% better roller at \$45/hr painting 70m² of gyprock with 3 coats.** More details at [Aussie painters magazine](#) page 40
- ▶ Polyamide family examples: Nylon, many of our rollers including our Terracotta and Goldstripe rollers, Kevlar (body armor), and natural polyamide like wool and silk.
- ▶ Buying quality polyamide rollers like the Terracotta and Goldstripe from **Rolon** is a great investment. **Painters will earn back the additional cost for this roller within hours.**
